***** NOTE: Oven cabinet openings vary immensely since some people use a single oven, some use a double oven, and some use a microwave and oven combination.**

Your installer may need to modify the size of your oven opening by cutting the opening for the hole so it is bigger, and/or trimming it with fillers to make it smaller.

If you want to use a standard 30" wide over the stove microwave, do NOT use MWO3018PM-12 or MWO3030 series. You can order a wall cabinet that is 30" wide and 12", 15", 18" or 24" high, depending upon the height of your ceiling and height of your other wall cabinets. We can help you determine this.
